

EU declaration of Conformity

No. 0126

The declaration of conformity applies to the packaging materials used for products packaging and transport packaging.

The packaging materials we use are supplied by:

- VPK and Stok Emballage K/S for corrugated cardboard boxes – Annex 1
- Halco Packaging ApS for LDPE foil – Annex 2

Raaco A/S do not produce packaging materials and all information, technical specifications, declarations are delivered by our suppliers.

We take our responsibilities towards authorities, customers, and the environment very seriously. We carefully select our suppliers and ensure, through supplier declarations and data sheets, that our products are supplied in compliance with at least the following regulations:

Packaging Directive 94/62/EC

The content of environmentally harmful substances and the use of heavy metals have been minimized and never exceed permitted limit values. All products can be reused or disposed of—whether through recycling into other materials, incineration with energy recovery, composting, or biodegradation.

REACH Regulation (EC) No 1907/2006 (including amendments)

The products have been assessed in accordance with REACH Regulation (EC) No 1907/2006 and based on suppliers' information comply with applicable requirements, including those regarding SVHC substances.

RoHS Directive 2011/65/EU

Directives (EU) 2015/863 and (EU) 2017/2102 (regulations on the restriction of hazardous substances in electrical and electronic products). As the products in question are not electrical or electronic equipment, we have—solely through supplier declarations—ensured that the packaging products do not contain lead, mercury, cadmium, chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), or heavy metals.

POP Regulation (EU) 2019/1021

Regarding the ban on the manufacture, import, and use of certain persistent organic pollutants (POPs); this applies to the substances themselves as well as their presence in mixtures and articles.

FKM (Food Contact Materials) Regulation (EC) No 1935/2004

Raaco A/S products and packaging we use are not usually suitable for food contact.

PPWR Regulation (EU) 2025/40

At present, several requirements within the regulation are still under development and pending the adoption of delegated acts. Raaco A/S therefore bases its assessment on the requirements that are applicable and operational at the time of or this declaration.

Article 5 – Restriction of substances in packaging

Based on supplier information, the packaging is assessed to comply with applicable requirements for the content of problematic substances, including heavy metals and substances regulated under REACH Regulation 1907/2006 and POP Regulation 2019/1021.

Raaco A/S is also actively working to identify and reduce the use of substances that may have a negative impact on recyclability and environmental impact, including PFAS and other problematic substances.

Extended producer responsibility (EPR)

In accordance with applicable national rules for producer/user responsibility, raaco A/S is registered with a collective scheme in Denmark and regularly reports quantities of packaging that are placed on the market.

It is clear from sales documentation whether producer responsibility is handled by the packaging supplier or is the responsibility of the customer.

We will continuously update this declaration as requirements under the PPWR come into force, including requirements related to recyclability, labeling, and packaging reduction.

The information in this declaration is based on data and documentation received from our suppliers as well as our current knowledge. The information is provided in good faith and to the best of our knowledge.

Kind regards
Raaco A/S

A handwritten signature in blue ink, appearing to read "Beata Basiak".

Beata Basiak – Quality coordinator

Issued by: Raaco A/S, Platanvej 19, 4800 Nykøbing Falster
Date of issue: 06/08-2026
This declaration is valid for one year from the date of issue.

Declaration of Compliance – Annex 1

Corrugated cardboard boxes delivered by:

- VPK Packaging, Mirabellevej 16, 8930 Randers
- Stok Emballage K/S, Erik Stok Alle 4, 5550 Langeskov
