Conflict Minerals Statement

Conflict Minerals or Dodd-Frank Wall Street Reform and Consumer Protection Act in 2010 section 1502 – Conflict minerals.

Raaco undertakes due diligence to attempt to determine if “conflict minerals” are used in our products.

Conflict minerals are described as:

Gold (Au)

Tantalum (Ta)

Tungsten (W)

Tin (Sn),

that are sourced from the Democratic Republic of Congo or adjoining countries from mines controlled by non-government military groups.

A part of the raaco process for the implementation of new suppliers, our supplier questionnaires requests direct confirmation, that materials we purchase do not contain conflict minerals and a self-declaration is also required that the full supply chain process of the suppliers has been examined to confirm this.

In addition, we have also reviewed our existing supply base, and can confirm that none of our suppliers use conflict minerals.
