

Compartment boxes

Systems for order and storage

raaco + efficiency thru order

+ Inspiration for order - go to raaco.com

Keeping things in order means you are in control

“Can anyone tell me where it is” - a simple call for the need to have things sorted out that can lead to delay and extra expense. Order, on the other hand, creates control, calm and results. And these are the principles that drive raaco A/S, a company that applies a systematic approach to the design and development of flexible storage systems. Order gives overview and saves time - because things are organised. That means a level of control that can be felt in the process and on the bottom line. Order creates results - it's as simple as that.

Design for the future and with the environment in mind

raaco is an advanced, well-proven system designed to last. Each product group is designed so that its components fit together, can be stacked, changed around and organised to suit the individual. For example: inserts dating from 1982 still fit into the latest CarryLite trays - and will continue to do so. The system is designed to be used, with rounded corners and ergonomic handle to make it a pleasure to work with. All storage boxes are made of strong, highly durable and impact-resistant materials. Physical and practical. That not only means overview now, but creates reassurance and results for planning and systematisation far into the future.

raaco's products are designed according to the DFD principle (Design for Disassembly), and mean that the products can be disassembled. That makes it possible to replace parts that are broken, helping protect the environment by cutting down the need to throw materials away.

Made in Denmark

raaco is designed and made in Nykøbing Falster, and we are immensely proud that our products generate such interest at home and abroad. raaco is currently in use in over 20 countries, creating order in everything from small enterprises to the Airbus Group, one of the biggest companies in Europe.

Create your own system for complete order

raaco compartment boxes consist of Boxxser, CarryLite and Assorter, each of which have their uses according to individual requirements for keeping things in order.

Order creates results

It's reassuring to know that everything is in its place. The compartment box system is designed for use in the workshop, on-site, on the move or for fitting in service vehicles. They bring order in a functional, durable and simple manner. The order you build up from the start can be maintained wherever you go. That creates results at work.

raaco inserts - a unique system

Our inserts not only fit our 3 compartment boxes, but are also used in other raaco products. They represent a unique system with infinite variety to meet individual needs for order.

Designed for strength

These compartment boxes are designed for long-term use and strength at work. Strong, impact-resistant clear lids so that you can see where things are. The boxes are made of impact-resistant polycarbonate and polypropylene, materials that are highly durable and strong, with robust hinges that allow the boxes to be used again and again.

Boxxser

CarryLite

Assorter

You create the order and over-view you need

raaco inserts mean you can group and sort items to your own requirements.

There are 20 insert variants that fit the 3 systems in height, width and depth: Boxxser, CarryLite and Assorter. By using the wide range of inserts, you can organise your raaco product to suit your own requirements - and change it at will. The inserts and contents stay in place, thanks to the special fitting system. The loose inserts also make it easy to get hold of even the smallest items.

Go to raaco.com to search for inserts.

- + Our inserts fit any of the raaco product range. Move any insert to where you want to use it.

+

The lids are designed with raised profiles to ensure that even the smallest components remain in their place when they are closed. The sorted contents will not become mixed up, e.g. during transport. That's good order.

Boxxser

An integrated box system
created for order and overview

Boxxser is a fully integrated box system that meets the need to keep things in order. This is a particularly strong box able to tolerate the stresses and strains of the workplace. The various sizes and flexibility of the system meet any requirement for optimum function. It can be added to at will, making Boxxser a highly durable system.

+ Boxxser comes with a 10 year guarantee.
Go to raaco.com to view the full range.

German Design Award Nominee 2014 and IF Design Award 2012

"We are totally dependent on order at Pilemand. We have such a wide range of jobs during the year, which means that we have to keep all our materials in order. Boxxser makes it easy to maintain overview, which can clearly be seen in the results," *Martin, joiner at Pilemand A/S*

+ Inspiration for order - go to raaco.com

Create your own system

The inserts can be moved around to suit. There are 20 different variants.

Meet any individual requirement

Available in heights of 55 and 80 mm and in 6 different sizes.

Colour coding

Interchangeable ID corners in 7 different colours make it possible to use colour coding.

Combined lock/close function

The handle ensures that the lid is always locked to prevent the contents spilling out. Ergonomic handle for comfort.

Impact-resistant and shatter-proof plastic.

The lid is made of impact-resistant polycarbonate, and the box features a double wall system in polypropylene for extra strength.

Extra strong hinges

Hinges are placed inside the bottom to make them more durable.

HandyBoxxser

For storing 4 Boxxser boxes, with easy access to the contents. Transportable, stackable and wall-mountable.

Boxxser shelf

For the van or workshop. Made of aluminium. Space-saving, easy overview. Room for 11 boxes depending on size.

For more detailed description of benefits visit raaco.com

Foam insert for protection and overview

We can custom produce foam inlays for all 3 systems - Boxxser, CarryLite and Assorter. Protect special tools or instruments during transport - and retain easy overview.

+ Go to raaco.com under 'Foam Insert'.

Using raaco's box configurator the foam insert can be matched to individual requirements.

CarryLite

Lightweight, robust and excellent overview

CarryLite is a lightweight storage box. Produced specifically for overview and order. Makes the system highly durable. CarryLite comes with a 10 year guarantee.

- + The range is in two sizes: 55 and 80 mm in height with movable inserts, and 150 mm in height with partitions that can be placed according to requirement. Choose between a normal or sandwich lid for labels, with or without U-profiles. Both types of lid are made of impact-resistant polycarbonate.

Go to raaco.com to view the full range.

"It's great to have a system that can take the knocks at work. I save hours when different fittings are sorted properly. I have the system in my vans and at the workshop and it always works well. Excellent!"
Sonny Bengtson, Sonny VVS ApS

ID Award 1995 and IF Design Award 1997

+ Inspiration for order - go to raaco.com

Extra inserts in a wide range of sizes
20 variants to fully customise the box according to requirement.

2 sizes and 3 heights
Add to your CarryLite system when required. A simple, easily-manageable system.

Sandwich lid for better overview
The double lid makes it possible to insert a label for content identification.

Red open/closed indicator
Indicates whether the lid is unlocked. Seals can also be inserted at each sliding lock.

Multiple point hinges are strong
Robust, highly durable multipoint hinges in the lid, made of high quality plastic.

CarryLite 150, extra high
Removable partitions in 3 sizes included. Divide the box into up to 9 compartments.

Make life easy with a transport box
Mobile storage unit to make it easy to transport up to 4 CarryLite units.

CarryLite shelf
For the van or workshop - keep several CarryLite together when required.

For more detailed description of benefits visit raaco.com

The double lid provides security and overview

We call it the 'raaco Sandwich Lid'.

It provides the option of inserting a label to identify the contents. You can also insert instructions (e.g. assembly guide) for correct use of the contents. There are innumerable ways of creating security and overview.

+ Inspiration for secure solutions - go to raaco.com
See under 'Sandwich Lid'.

Assorter

Practical, durable and excellent for storing small items and accessories

Assorter is a system designed and created specifically for practical sorting.

Assorter was developed according to DFD guidelines (Design for Disassembly), which ensure that the box can be disassembled and the parts replaced/reused. Assorter comes with a 10 year guarantee.

- + The range consists of 12 boxes in different sizes. Go to raaco.com and search under products/Assorter.

"I use my compartment boxes every time I'm working at a customer's premises. They give me good overview, save me a lot of time and I don't have to go rooting around for things." *Martin Steen, electrician at Enelco ApS*

+ Inspiration for order - go to raaco.com

Removable inserts in 20 variants
Different sized inserts included so that the box can be arranged as required.

Assorter - also available with fixed compartments
If you do not need flexible inserts, Assorter is available with fixed compartments.

Secure and ergonomic
Solid sliding locks and ergonomic handle make this a secure, easy to carry box.

Semi-transparent lid
Gives rapid overview. Raised U-profiles ensure that the contents stay in place.

Meet any individual requirement
Available in 12 different variants. Five different heights and four widths.

Impact-resistant plastic
Made of highly resistant plastic. Tolerates temperatures from -20 to +60 degrees

Integrated feet in the bottom
Makes Assorter stackable, and protects the surface against scratches.

HandyBox system for transport
With room for 4 Assorter boxes. For easy, compact transport with one hand.

Screws A

+ Inspiration for order - go to raaco.com

Order creates results and job satisfaction

raaco has specialised in developing the best, simplest storage systems for industry and professional use all over the world since 1956. Our approach is highly focused and simple. It's all about order. Not just for the multitude of components, tools and small items vital to production, but also in the mind.

Order gives overview, control and reassurance, enhancing job satisfaction for everyone.

Room for good ideas that last

When the workplace is tidy, with all the important small items and accessories sorted into the right boxes and compartments, thinking clearly is easier. There's room to see things from a new angle and to achieve even better results. That's how we work ourselves at raaco. And that's why we can continue to develop new, innovative and detailed solutions that last.

Design awards have to be lived up to

raaco has been awarded a host of international and Danish awards for excellent industrial design over the years. Naturally, that's something we are proud of. They also have to be lived up to. That's why we are so particular, setting high standards for the durability, function and details of our systems. We always seek to maintain such standards with regard to ideas, the design itself and choice of materials.

The environment in mind

raaco is very concerned about the environment, and we go to a lot of trouble to ensure that product development and production are environment-friendly. What that means in practice is that we work hard to minimise our impact on the environment and our employees. This policy is expressed in the comfortable working environment in which our employees create robust, highly durable and environment-friendly solutions. This is to the benefit of everyone - including the environment.
