Systems for order and storage

+ Inspiration for order - go to raaco.com

Keeping things in order means you are in control

“Can anyone tell me where it is” - a simple call for the need to have things sorted out that can lead to delay and extra expense. Order, on the other hand, creates control, calm and results. And these are the principles that drive raaco A/S, a company that applies a systematic approach to the design and development of flexible storage systems. Order gives overview and saves time - because things are organised. That means a level of control that can be felt in the process and on the bottom line. Order creates results - it's as simple as that.

Design for the future and with the environment in mind

raaco is an advanced, well-proven system designed to last. Each product group is designed so that its components fit together, can be stacked, changed around and organised to suit the individual. For example: inserts dating from 1982 still fit into the latest ToolCase trays - and will continue to do so. The system is designed to be used, with rounded corners and ergonomic handle to make it a pleasure to work with. All storage boxes are made of strong, highly durable and impact-resistant materials. Physical and practical. That not only means overview now, but creates reassurance and results for planning and systematisation far into the future.

raaco's products are designed according to the DFD principle (Design for Disassembly), and mean that the products can be disassembled. That makes it possible to replace parts that are broken, helping protect the environment by cutting down the need to throw materials away.

Made in Denmark

raaco is designed and made in Nykøbing Falster, and we are immensely proud that our products generate such interest at home and abroad. raaco is currently in use in over 20 countries, creating order in everything from small enterprises to the Airbus Group, one of the biggest companies in Europe.

Tool cases designed for unbeatable durability and order

raaco tool cases cover the needs of fitters, service engineers and tradesmen and their work.

Strong and with intelligent details

raaco tool cases are simply the best in Danish design made from the very strongest materials. Designed right down to the last detail - as shown in their unbeatable overall stability and strength.

ToolCase

A very robust, strong range of cases. Single-piece cast frame with hinges. For extra strength and durability. Fitted with high quality gas struts to make it safe and easy to open and close.

ServiceCase

A simple, uncluttered and very solid tool case with place for the most necessary tools. A real workhorse that covers the needs of the building and construction industry.

Meet individual needs for order

These cases are designed for completely flexible revision and replacement of inserts and holders as required. Flexibility and overview are vital to maintain order during a busy working day.

ToolCase Basic

ToolCase Premium

ToolCase Superior

ServiceCase

ToolCase

Genuine Danish design with unbeatable strength

This is a tool case for the professionals and the particular. Overview and functionality are a natural. The ToolCase range is highly robust and strong, made of impact-resistant ABS and cast aluminium frames. As shown in the unbeatable strength and durability. Comes with a 3 year guarantee.

+

The range consists of 3 different models. Basic, Premium and Superior - each with their own degree of strength and stability. All 3 models come in 2 different sizes.

Red Dot Award 2014, German Design Award Nominee 2014 and IF Design Award 2013

"I can't always park close to the customer's address and having a wheeled case is simply fantastic." *Bjarne Ladevig, Service Engineer, Zolutions ApS*

Trolley system integrated in frame. 4-stage telescoping handle extending to 105 cm, with plenty of room for the heels when walking.

Open ToolFix cassettes

Hold tools securely in place. Open at the bottom for better overview. Suitable for all types of tools between 10 and 25 mm diameter.

Elastic tool pockets

Available in three sizes. Suitable for all types of tools between 10 and 40 mm diameter.

Tray in the bottom

For small items and accessories. Can be divided using a wide range of inserts or partitions.

Removable tool panels

Open at an angle for easy access. Available in different variants.

Open/close system with gas struts

High quality gas struts to make it safe and easy to open and close.

Broad handle

Space for large hands - even when wearing gloves.

Bevelled and rounded corners

Uniquely designed to reduce the risk of damage.

Solid rubber wheels

With strong brackets for quiet, easy and comfortable pulling.

ServiceCase

Robust and simple

ServiceCase is an extremely solid tool case made of the strongest plastic on the market. ServiceCase makes it easy to organise tools and accessories, ensuring complete protection at all times. A highly flexible solution for completely personalised organisation using raacoFix and partitions.

+ Available with combination or key lock and in a trolley version. Carrying capacity of 20 kg.

IF Design Award 1997

"It simply does not slide around even when I'm on a wet deck. And I can have all my tools with me on the ships. Practical and easy to use. Plus it's very robust."

Erik Tedeschi, marine mechanic

Trolley version

Easy to operate for comfortable transport of heavy tools.

Rubber strips on the bottom

Protect against scratches and slipping on a table or in the car.

Extra compartment with lid

Practical for the small things that lie around loose.

Smart insert box

Insert boxes provide good overview and can hold large amounts of small items.

The strongest plastic materials on the market

Made of polycarbonate - can take just about anything.

Moveable partitions

Give flexibility, control and order when organising the interior of the case.

Stable tool panel

The tool panels are held in place by a strong frame when the lid is open.

raacoFix tool holders

Can be used individually or combined for more space for tools.

"As if tailor-made for my work. I have around 20 kg of tools with me, so a case on wheels is a major advantage. And it runs well on any surface. It's extremely flexible and I've arranged it in the way that suits me perfectly."

Dan Diesø, service engineer, Contech Automatic ApS

Order creates results and job satisfaction

raaco has specialised in developing the best, simplest storage systems for industry and professional use all over the world since 1956. Our approach is highly focused and simple. It's all about order. Not just for the multitude of components, tools and small items vital to production, but also in the mind.

Order gives overview, control and reassurance, enhancing job satisfaction for everyone.

Room for good ideas that last

When the workplace is tidy, with all the important small items and accessories sorted into the right boxes and compartments, thinking clearly is easier. There's room to see things from a new angle and to achieve even better results. That's how we work ourselves at raaco. And that's why we can continue to develop new, innovative and detailed solutions that last.

Design awards have to be lived up to

raaco has been awarded a host of international and Danish awards for excellent industrial design over the years. Naturally, that's something we are proud of. They also have to be lived up to. That's why we are so particular, setting high standards for the durability, function and details of our systems. We always seek to maintain such standards with regard to ideas, the design itself and choice of materials.

The environment in mind

raaco is very concerned about the environment, and we go to a lot of trouble to ensure that product development and production are environment-friendly. What that means in practice is that we work hard to minimise our impact on the environment and our employees. This policy is expressed in the comfortable working environment in which our employees create robust, highly durable and environment-friendly solutions. This is to the benefit of everyone - including the environment.
