VAN EQUIPMENT

The perfect solution
for a mobile workspace!

VAN EQUIPMENT IN DANISH QUALITY

FLEXIBLE - DURABLE - ECONOMIC

MODEL OVERVIEW

Find your specific van in the overview. Look up on the summary page for your van. Which specific needs do you have for storage in your van? Do you have a lot of small items, choose set or modules containing 4-800 shelf drawers. Do you need to store many medium or large sized items, therefore choose the bigger shelf drawers such as 6-1100 and 8-2000.

In the model overview for your specific van, you will find easy instructions for the equipment, matching your needs.

The overview and the interior design suggestions are based on a range of standard modules with the abbreviation SS.

SS – Standard system is universal and covers most needs for storage in the mobile workshop

ES – EL-System is a standard module customized for the electrician

VS – VVS-system is a standard module customized for the plumber

AS – Alternative System is developed for the craftsman, who needs a great number of drawers or without boxes and drawers.

But - with raaco van equipment you are not tied to pick "a standard solution". If the standard systems do not match your needs, you are free to choose single modules or to customize your very own solution which matches your specific needs.

Certified since 1994!

raaco A/S is a Danish-owned company known for traditions of innovative design, durable and sustainable products of high quality.

As a production company located at Lolland-Falster in Denmark, we are very aware of our impact on the environment around us.

We continuously work to reduce our emissions to air, water and soil.

In order to ensure constant high quality of our products, it was obvious to get certified in ISO 9001 in 1994 and our respect for the environment was confirmed by certification in ISO 14001 in 1999.

Certification in ISO 45001 with ISO 45003 in 2019/2021 was a logical extension of our mission to produce quality products in a sustainable environment with respect for our surroundings and employees.
